

December 31, 2009

Muredach McCloat, as the owner of Sligo Construction, was the contractor of our custom house, which was completed in the summer of 2009. The construction of our house was no easy task given its very unique architectural design features, including custom exterior limestone, radiant heat on all floors, a suspended double staircase and custom crafted arches, columns and ceilings. Muredach's level of skill and attention to detail is of the highest quality. As a result of his many years in the business and his background as a carpenter, we feel confident in his review and assessment of any work performed by subcontractors. In addition to his excellent craftsmanship, we can attest to Muredach's work ethic, honesty and calm disposition, particularly when dealing with city inspectors. These qualities make him a pleasure to work with during the long and often stressful building process. Most importantly, Muredach is a man of his word- a trait that is rare in today's business world. We therefore give Muredach the highest form of recommendation and would gladly recommend him to family, friends and business associates.

Sincerely,  
Jan and Ken Zekich

In 1988, Muredach McCloat built our house at 3332 South Normal. We found Muredach to be honest and dependable. His handshake is as good as a contract. He takes great pride in his custom work and it shows in the quality of the finished product.

We had a crack in the drywall 3 years later, after the house settled, and Muredach sent someone here to repair it and did not charge us.

We cannot say enough positive things about Muredach McCloat or the wonderful quality of his work.

Sincerely,

David Sheehan

To Whom It May Concern:

My home at 3611 South Lowe, was built in 1994, by Sligo Construction. I found the quality of Muredach McCloat's work to be excellent. He was always easily accessible during the building of our home.

Even one year after the completion of our home, when our children damaged the door jams, Muredach came back to repair them free of charge.

I highly recommend Muredach McCloat and Sligo Construction.

Sincerely,

Michael Botica

Re: Recommendation Letter

My wife and I built our dream home and we are extremely happy and ecstatic about the finished product. We are going to enjoy this house for years to come because it was a pleasant and wonderful experience as the construction process was going on. This was a very smooth transaction from start to finish.

What made this a pleasurable and wonderful experience for us was due to our choice on a General Contractor. The contractor we selected was Sligo Construction, owned by Mr. Muredach McCloat. We were very impressed with the craftsmanship and workmanship that Muredach showcased when we viewed model houses in the area that were built by Sligo Construction. His work is top of the line - QUALITY.

We were already very impressed with how we were treated in our pre-construction meeting with Muredach. He conducted himself in a very professional manner. He took the time to sit down with us and thoroughly explained the construction process to us. Also, he courteously answered every question and concern that we had about building a house. He offers his experienced opinions, but you are the one to make the final decision on the way you want your brand new home to look like.

In our opinion, Mr. Muredach McCloat is a very reputable contractor. He is a credit to his profession. He is truly a professional in his field of work. He is a very personable and straight-forward business man. When he says he'll correct a problem for you, it gets done.

Personally, Doris and I would like to say THANK YOU for your professionalism and a job well done. We want to wish you continued success for now and the future.

Sincerely,

*Edward & Doris Dea / ed.*

To whom it may concern,

This letter is in reference to Muredach McCloat. Muredach has sixteen years experience as a carpenter. Upon his arrival to Chicago in May of 1980, he was employed by Ferro-DiPiazza Construction as a carpenter. Since that time, he has started his own company and presently works as a carpentry subcontractor. He has worked on homes that range in price from one hundred fifty thousand to three hundred fifty thousand dollars doing rough carpentry and trim work.

He is currently working on our project at 33rd and Normal where we have completed and sold twenty-three homes. We are extremely satisfied with Muredach's quality of work as well as fairness in price.

Ferro-DiPiazza is in the process to start another project consisting of eight two-flat buildings. Muredach McCloat has been awarded the carpentry contract for this project.

Sincerely,

Thomas DiPiazza

To whom it may concern;

This letter is to serve as a reference for Mr. Muredach McCloot of Sligo Construction. Our home was completed in December of 1994 on time and to our complete satisfaction. We are very happy with the way it turned out. I would not hesitate to recommend Sligo Construction and would definitely use them again.

Please feel free to contact my husband or myself with any further questions.
